Parramatta with water of a better description,
than that which they had been compelled to
use, and contended that the present neglected
state of the town in respect of water supply
definitely source not only of discomfort,
but of disease among its inhabitants.
He hoped that after reading the correspondence
now members would have no difficulty in ac-
knowledging a sum of money placed upon the
estimate for a pump or pumps.

Mr. BOWMAN seconded the motion.

Mr. NICHOLS supported the Address, con-
taining heartily with the mover as to the
importance of the evil complained of, and
said—

The COLONIAL SECRETARY would not
oppose the motion, provided the correspondence,
which was very voluminous, was not printed.
The first estimate made was £3860, and in all
view of this kind of estimate almost every
year needed the first calculation. When the al-
location was made, the Government of that
day replied that the working of a purely
local nature, the district ought to tax itself for
the performance of duties of this kind. It was
subjected to as a public work, first because
the Government would hardly seem
justified in recommending so large an
expenditure upon a single town, and se-
condly because it was a precedent for
precedent for similar works in every town of
the colony. The Council, however, would be
able to judge for themselves on seeing the cor-
respondence.

Mr. FITZGERALD supported the motion,
and declared his knowledge as to the badness of
the water.

Mr. OAKES, in reply, contended that there
was no other place where such need might
occur as this kind of Parramatta, and that
the outcry was very trifling when compared
with the cost which the inhabitants were put
to in order to supply themselves at the present
time.

The Address was then agreed to, and was
ordered to be presented to His Excellency by
the Speaker.

EXILES AND EXPIRIES.

Mr. JACKINSON moved that an address
be presented to His Excellency the Governor,
requesting that returns may be laid upon the
table of this House, showing the number
of exiles, expiring convicts, and ticket of
leave holders under the management of Port
Phillip, since the commencement of the
exile system, from Great Britain
and Van Diemen's Land respec-
tively; and also returns showing the num-
ber of exiles and classes under the manage-
ment of criminal officers in Port Phillip within
the same period, particularising the offences
of which they have respectively been found
guilty. His object, he said, was to convince
the Honorable the Governor and the Council
of the absolute failure of the exile system. He did
not think that it was desirable to get rid of the
engagement out of doors upon the transporta-
tion system, but he thought it was desirable
that this excitement should be kept up; for it
was only by this means that they could
hope to prevent the Home Government from
forcing conviction upon them.

Mr. CROWDER seconded the motion. He
thought that the Government had no objec-
tion to furnish the returns; but it would
take some time to prepare them, as they would
have to procure the information from the re-
turns of Port Phillip.

The address was then carried, and was
ordered to be presented by the Speaker.

THE MAYOR OF MELBOURNE.

Mr. MACARINE withdrew the follow-
ing resolution, namely, "Resolved, That, in
vi-
sia," that an address be presented to His
Excellency the Governor, requesting that
copies may be laid upon the table of this House
of all the correspondence that has taken place
between the Governor and the Honorable the
Superintendent of Port Phillip, relative to the
exclusion of the present Mayor of the City
of Melbourne from the Commission of the
Peace. Since giving notice of this motion he
has ascertained that the Commission of the
Peace had been offered to the Mayor but re-
fused, unless tendered in his official capacity.
No night had therefore been put upon the
motion, but he thought it was desirable that
first imagined to be the case, and he quite ad-
mitted the right of the Government to deal
with the matter. He begged to be understood
that he had not put this motion on the paper
because of the Melbourne Corporation, but he
wanted to have their own members here if they
ought to have anything moved (laughter).

POSTPONEMENTS.

Mr. BOWMAN's motion, that an Address
be presented to His Excellency the Governor
praying that a return may be laid upon the
table of this House, of all moneys received
at tolls at the bridge over the South Creek
since the 1st January, 1854, to the 31st Decem-
ber, 1858, and how such moneys have been
appropriated,—was postponed until Thursday
next.

Mr. DANGAER's motion for leave to bring
in a Bill to amend the Act No. IV, Vol. IX,
No. 1, for regulating the slaughtering of cattle,
was postponed until Thursday next.

Mr. DANGAER'S motion, that an Address
be presented to His Excellency the Governor
praying that his Excellency will be pleased
to extend the provisions of clauses 4 and
32 of the Government Regulations of the 29th
March, 1858, to the public generally,—
under the regulations of Melbourne, was post-
poned to the leaves of certain waste lands
of the Crown to a special class of persons
only—which, in the opinion of this Council,
is subversive of the public interest, and par-
tial and oppressive to the community,—
was postponed until Thursday.

Mr. LAMB'S motion, that an Address be
presented to His Excellency the Governor
praying that the provisions of clauses 4 and
32 of the Government Regulations of the 29th
March, 1858, to the public generally,—
under the regulations of Melbourne, was post-
poned to the leaves of certain waste lands
of the Crown to a special class of persons
only—which, in the opinion of this Council,
is subversive of the public interest, and par-
tial and oppressive to the community,—
was postponed until Thursday.

Mr. LOWE gave notice of his intention, on
Friday, to move that an address be presented
to His Excellency the Governor, praying
that his Excellency may be pleased to
cause to be laid upon the table of this
House, an account of the average dividend
paid in all insolvent estates placed under
sequestration in the County District, since the
passing of the Insolvent Law.

THE GOVERNOR'S TRAVELLING
EXPENSES.

Mr. LOWE gave notice of his intention, on
Friday next, to move that an address be
presented to His Excellency the Governor, request-
ing that his Excellency will be pleased to
cause to be laid upon the table of this House
a copy of the Majesty, authorizing the
Government to appropriate £200 per Annum
from the surplus of Schedule B, to the payment
of his Excellency's travelling expenses.

GENERAL ELECTION.

Mr. NICHOLS gave notice of his intention
on Tuesday next, to move for leave to bring
in a Bill to prevent any commissioner of police,
police magistrate, superintendent of police,
police member of the police force, or constable
being sworn in or for the licensing of the
Legislative Council of New South Wales.

WORKS OF ART BILL.

The Bill was read a third time, and passed
upon the motion of Mr. NICHOLS.

Council adjourned till Wednesday at eight
until three o'clock this afternoon.

QUARANTINE.—The following notice appears
in yesterday's Government Gazette.—Colonial
Secretary's Office, Sydney, 9th June, 1859.

MEETINGS THIS DAY.

In the estate of Richard Brown, an adjourned meeting at 10 o'clock.

In the estate of William Wilmington, a single meeting, at 11.

In the estate of Francis Matthews, a first meeting, at half-past 11.

In the estate of James Clark, a special meeting, at noon.

MEETINGS TO-MORROW.

In the estate of William Hutchinson, an adjourned special meeting, at 11 o'clock.

In the estate of Charles Windymer, a special meeting, at 11.

In the estate of Daniel Canells, Robert Cassella, Henry Tanner, and Thomas Esler, certificate meetings, at noon.

GREAT PROTEST MEETING.

Two deputations appointed by the public meeting held on Monday at the Circular Wharf, waited by appointment on His Excellency yesterday at 2 o'clock.

Mr. ROBERT CAMPBELL, who presided at the meeting, and who was chosen as the mouth-piece of the protest, stated to His Excellency the object of the meeting, and the orderly and loyal manner in which it had been conducted. He then presented to His Excellency a copy of the protest which had been signed by 68 persons.

His EXCELLENCY, on receiving the protest said, he would lose no time in forwarding the protest and resolutions to England, to be laid before the foot of the throne.

Mr. CAMPBELL suggested that there were one of the resolutions relating to a local matter, upon which your Excellency may desire to give some answer.

The GOVERNOR, in response you allude to the resolution petitioning me to send the prisoners back?

Mr. CAMPBELL and Mr. LOWE, together—Yes.

THE GOVERNOR: The deputation must inform those by whom they were deputed, that this is obviously impossible.

The Chairman of the meeting (Mr. Campbell) said on his proceeding to express his respect to the Earl of Dudley, that he received a more satisfactory answer, when his Excellency cut him short, and said he was not prepared to enter into any discussion.

He then uttered in a manner which utterly precluded further communication, the deputation immediately withdrew.

A meeting of the gentlemen composing the deputation took place yesterday afternoon, at the residence of Mr. Campbell, and other gentlemen, at which great dissatisfaction was expressed at the tenor of his Excellency's reply, and the marked discourtesy exhibited in excluding the whole of the deputation on Monday morning from the consideration of their reception on the succeeding day.

It was ultimately resolved that a public meeting should be held at the Circular Wharf on Sunday next, at which three resolutions will be proposed, and forwarded to the Governor for the discourtesy with which he listened to the Protest of the people over whom he has been called on to preside; secondly, to petition the Queen to remove the Earl of Grey; and, thirdly, that the present differences between the sentiments and instructions of the Governor and the opinions of the people show the immediate necessity of responsible Government for the colony of New South Wales.

MULTUM IN PARVO.

(From late Australian Papers.)

Two hundred of the orphan girls, arrived at Melbourne by the Pemberton, obtained engagements from £5 to £16 per annum.—Mr. J. F. L. Foster has recanted his opinion in favour of transportation : in his address to the electors he says—"I deem it due to you, to give to dated pledges to my votes on the subject of the re-transportation of convicts. I cannot feel that on that point I fell into an error which might well excite the alarm of many whose interests are identified with the project."—The Hon. Secretary of the Colonies to convert Port Phillip into a receptacle for British crime shall receive my opposition.

The changes in the Government department of South Australia previously announced are confirmed. Sir John Macdonald, Chief Secretary, has obtained eighteen months' leave of absence; Mr. B. J. Finnes, the Colonial Treasurer, takes the secretarial yamp during Mr. Macdonald's absence; Mr. Comynsay Macnamara, whose appointment as private secretary is cancelled, takes the treasurer'ship. Mr. Charles Alderson Wilson, is appointed Registrar of the Court of Vice-Admiralty.—The official records of the colony have been reduced to 100 pounds for the first quarter, of the current year show an influx of 4288 souls during the quarter; the departures during the same period amounting to only 517.—Judge Cooper has applied for leave of absence for six weeks, and will be absent for two months.—Sir William Denison, the Lieutenant-Governor of Van Diemen's Land, has introduced to that colony the value of the land in the Colony of Victoria, and the Islands, which attracted so much notice amongst agriculturists a few years ago.—The Bishop of Melbourne held an ordination at Geelong, on Trinity Sunday, when the Rev. Messrs. Gurney, and an assistant, and Mr. and Mrs. Bloomfield descend.—Building was almost at a stand-still in Geelong, in consequence of the scarcity and consequent dearth of building materials. Wines of South Australia are now being sold at retail prices of about half-shilling per bottle, and are spoken of as vying with the best imported in whole some quality, if not in brightness or exquisite flavour.—A large number of black geese had been brought to Adelaide, and an advertisement has been published in the Southern Cross.—The Adelaide City and Port Railway Company had issued their preliminary advertisement; the capital is £35,000, in 1500 shares of £25 each, £10,000 additional; 300 shares are reserved for allotment in the colony. The company is incorporated pursuant to statute.—The plan requisite for the construction of the railway from Adelaide to the sea, and an advantageous contract for the rails and chains has been entered into. The receipts of the line upon a fair calculation, based upon established rates, are estimated to amount to £15,500 per annum, after deducting £10 per cent for working and general expenses will leave £9000 annual profit to the proprietors.
